LOCAL SELF-GOVERNMENT.

RESOLUTION

REVIEWING

The reports on the working of the District Boards in Bihar during the year 1937-38.

SUPERINTENDENT, GOVERNMENT PRINTING, BIHAR,
PATNA.
1940.

No. 2588-L.S.-G.

GOVERNMENT OF BIHAR.

LOCAL SELF-GOVERNMENT DEPARTMENT.

From

B. C. MUKHARJI, Esq., I.C.S.,
SECRETARY TO GOVERNMENT,

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
DEPARTMENT OF EDUCATION, HEALTH AND LANDS.

Patna, the 24th May 1940.

Sir,

I am directed to submit the accompanying resolution on the working of district and local boards in Bihar during the year 1937-38 together with the prescribed statements.

2. An abstract of the income and expenditure of district and local boards in the province during the year in form of Table 141 of the Statistical Abstract of British India (fifth issue) is also submitted as promised in Mr. Owen's letter no. 1642-L.S.-G., dated the 2nd February 1929.

I have the honour to be,

Sir,

Your most obedient servant,

B. C. MUKHARJI,

Secretary to Government.

No. 2587-L.S.-G.

GOVERNMENT OF BIHAR.

LOCAL SELF-GOVERNMENT DEPARTMENT.

RESOLUTION.

Patna, the 24th May 1940.

READ—

The reports of the Commissioners of Divisions on the working of district boards in Bihar during the year 1937-38.

Constitution of district boards.—The year under review was the last year of the extended term of five years of the district boards. As however the Congress Government decided to hold the next elections of the boards on the basis of a much wider franchise than that prescribed for elections to the Provincial Legislative Assembly, their reconstitution had to be postponed until the election rules were further revised. The new District Board Electoral Rules which provide for the nearest possible approach to adult franchise were finally published about the close of the year under report. This resulted in the old boards continuing in office beyond the statutory period of five years. The redistribution of seats and revision of the constituencies of some of the district boards were also partly responsible for the delay in the reconstitution of the boards. The Bhagalpur district board continued to remain under supersession but at the request of some of the prominent public men of the district an advisory committee consisting of 25 non-official members was constituted by Government to advise the Special Officer in-charge of the board in all matters affecting its administration. Thus, in effect, this board was administered, during the year under report, by popular representatives of the ratepayers. There was a change in the personnel of the non-official executives of the Muzaffarpur and Monghyr district boards. Babu Sri Krishna Sinha, on his appointment as the Prime Minister of the Provincial Government, had to resign his office as chairman of the Monghyr district board in August 1937 and Babu Nemdhari Sinha was elected chairman in his place. In Muzaffarpur Babu Chandeshwar Prasad Narain Singh, C.I.E., M.L.A., and the Hon'ble Rai Bahadur Sri Narain Mahtha resigned their respective offices of chairman and vice-chairman of the board in October 1937 and Babu Mahesh Prashad Sinha and Babu Kishore Narain were elected chairman and vice-chairman, respectively, in their place. A few by-elections were held to fill up vacancies caused by the resignation or death of members in Gaya, Saran, Champaran and Muzaffarpur district boards.

2. *Meetings and tours.*—The number of meetings held by district boards was in excess of the statutory minimum of 12 meetings in the year in all the districts. No meeting had either to be adjourned or proved abortive for want of a quorum in any district. The average percentage of attendance of members at meetings was also high, being above 63 in all districts. The largest number of meetings was held by the Monghyr district board, viz., 29. Out of these 17 were special meetings most of which were held on the same dates on which ordinary meetings were held. Such an arrangement results in saving in expenditure over travelling allowance of members and the example can profitably be followed by other boards.

Tours of inspection were performed by the non-official executives of most of the district boards and also of some of the local boards during the course

of which they inspected, as usual, schools, dispensaries, pounds, dak-bungalows roads, bridges and other local offices and works under their administrative control. Touring done by the non-official chairmen of Patna, Shahabad, Champaran and Purnea and by the non-official vice-chairmen of Patna, Saran, Champaran, Purnea and Manbhum district boards was fairly extensive. The Special Officer in-charge of the Bhagalpur district board was on tour for 104 days. In other districts tours by the executives of district boards were inadequate. The chairman of the Darbhanga district board and the vice-chairman, Gaya district board, did not go out for local inspection even for a day. In Darbhanga the vice-chairman was on tour only for 16 days. This is far from satisfactory. To ensure efficient administration and effective control it is of the utmost importance that the executives of the district boards should have first-hand knowledge of the state of affairs prevailing in their subordinate institutions and offices and of the local needs and conditions of the people in outlying areas. This can be possible only by means of well-planned and regulated tours by the executives in the interior of the districts. The chairman of the Gaya district board and the outgoing chairman of Muzaffarpur district board did not charge any travelling allowance for journeys on tour from the district funds concerned.

3. *Local boards.*—There was no change either in the number of the constitution of local boards. The local boards in Bhagalpur continued to remain under supersession along with the district board. All the local boards except those of Nawadah and Aurangabad in Gaya; Arrah, Buxar and Bhabhua in Shahabad; Saran Sadr; Sitamarhi and Hajipur in Muzaffarpur; Sadr and Samastipur in Darbhanga; and Giridih in Hazaribagh attained the statutory minimum of 12 meetings in a year. No explanation has been given except by the local boards of the Muzaffarpur district for their failure to hold the prescribed number of meetings. In Muzaffarpur meetings were convened by local boards only when the number of subjects to be discussed was sufficient to justify a meeting. All these local boards except Aurangabad and Saran Sadr had failed in the preceding year also to hold the statutory number of meetings and the reason then assigned by the local boards in Muzaffarpur was also the same. The delay in holding meetings naturally results in stagnation and delay in disposal of work which must be avoided as far as practicable in the interest of efficiency. Out of the total number of 407 meetings held by local boards 8, or 2 per cent, proved abortive for want of a quorum. The average percentage of attendance of members at meetings was above 50 in all local boards except in Patna Sadr and Gaya Sadr where it stood at 34·6 and 42·8, respectively. No explanation has been furnished by these two boards for the low percentage of attendance at meetings but probably it was due to indifference of the members.

No new powers were delegated to any local board during the year under review. The proposal of the Manbhum Sadr local board for delegation of further powers is reported to be under the consideration of the district board. The Dhanbad local board already enjoys wide powers in respect of all matters. The amalgamation scheme in respect of public works under which all bills are checked and passed by the District Engineers before they are paid by the local boards continued to work in the Monghyr and Bhagalpur districts. While the scheme is reported to be working satisfactorily in Bhagalpur the chairmen of Jamui and Sadr local boards in Monghyr are reported to be dissatisfied with it but in the opinion of the District Magistrate there appears to be little justification for any grievance.

4. *Union committees.*—The number of union committees remained at 22 as in the preceding year. Since the enactment of the Bihar and Orissa Village Administration Act, 1922, no new union committees have been formed under the Bihar and Orissa Local Self-Government Act, 1885, as union boards constituted under the former Act wield larger powers and are consequently more popular. The union committees of Begusarai, Jhajha and Jamui in Monghyr and the Madhipura union committee in Bhagalpur were reconstituted during the year under review. All the union committees except those of Sherghati and Rafiganj in Gaya, Koath in Shahabad, Jainagar in Darbhanga, Jhajha in Monghyr and Amarpur, Nirmali and Madhipura in Bhagalpur held

12 or more meetings in the year. The Balrampur union committee in Manbhum was wrongly reported, in the last resolution, to have failed to convene the statutory number of 12 meetings in the year. This union committee actually held 18 meetings during 1936-37. The activities of the union committees were confined, as usual, to control and maintenance of village roads, pounds, dispensaries and primary schools and to the improvement of rural water-supply and sanitation which included the cleaning of private and public latrines in most places. A number of these committees also made street lighting arrangements either out of their own funds or with special grants made to them by district boards for the purpose. The Jamui union committee in Monghyr got a grant of Rs. 300 from the Divisional Commissioner for the purpose. The working of the union committees in Monghyr is still reported to be unsatisfactory but some improvement is said to be noticeable in the work of Haveli-Kharagpur and Lakhisarai unions.

The income of the union committees was derived, as usual, mainly from contributions paid by the district boards, from taxation under section 118C of the Bihar and Orissa Local Self-Government Act, 1885, and from receipts under the Cattle Trespass Act. The total receipts of the committees from all sources, during the year under review, amounted to Rs. 88 and shows a small increase over the preceding year's receipts. The opening balance of the year was roughly Rs. 20. Thus the total amount available for expenditure by union committees was Rs. 1,08 of which Rs. 89 was spent leaving a closing balance of Rs. 19.

5. *Financial results.*—(The figures in this and the succeeding paragraphs are given in thousand of rupees).

The aggregate opening balance of district boards on the 1st April 1937 amounted to 20,89 against 38,41 in the preceding year. The net decrease of 17,52 was shared by all the boards except Bhagalpur where there was an increase of 64 as compared with the last year's figure. The balance of the Saran district board was below the prescribed minimum and the Champaran district board had not only no balance of its own but actually encroached upon the unspent balance of Government grants to the extent of over 13. The total receipts of the boards from all sources including Government grants amounted to 1,61,36 against 1,55,51 in the preceding year. The total amount available for expenditure, including the opening balance, thus stood at 1,82,25 out of which a total sum of 1,49,13 was actually spent leaving a closing balance of 33,12. This balance included deposits amounting to 4,03 which is not the boards' money and an unspent balance of Government grants amounting to 7,18. The ordinary free balance of the boards thus amounted to 21,90 only as against 15,60 in the preceding year. The closing balances of all the boards except those of Saran, Champaran and Manbhum were above the minimum prescribed in each case.

6. *Local rates.*—The total receipts of the boards from this most important source of revenue show a net increase of 1,80 as compared with the preceding year's figure but were still below the figure of the year 1935-36 when the total receipts from local rates amounted to 73,01. The increase was shared by all the boards except Patna, Champaran, Muzaffarpur, Ranchi and Palamau. The increase was substantial in the districts of Gaya (+64), Darbhanga (+41), Saran (+17), Purnea (+21), Hazaribagh (+25) and Manbhum (+53) and is attributed to better collection of cess during the year. The improved collection in Purnea is again reported to be due to special endeavours made by the Collector for the realization of cess. On the other hand there was appreciable decrease in income from cess in the districts of Patna (—37), Champaran (—18) and Ranchi (—15). The decrease in Patna is ascribed to low realization of cess on account of disturbed agrarian conditions and general economic depression. The fall of income in Champaran has not been explained. In Ranchi poor collection of cess is reported to be the cause for the decrease.

7. *Government grants.*—The total amount of contributions from provincial revenues made to district boards, during the year, for various purposes was 66,20 against 42,56 in the preceding year, and works out to about 44 per cent of the total income of the boards. There was substantial increase in the

grants for "Education", "Medical Relief and Public Health" and "Civil Works" which during the year amounted to 26,28; 3,06 and 35,67 against 25,15; 2,81 and 14,26, respectively, in the previous year. The considerable rise of 21,41 in the grant under head "Civil Works" was principally due to the adjustment made during the year of earthquake grants previously sanctioned as "advance grants" to Champaran, Muzaffarpur and Darbhanga district boards. This head also includes the augmentation grant and the grant out of the proceeds from motor vehicles taxation which, during the year, amounted to 1,80 and 2,29, respectively.

8. *Distribution of expenditure under main heads.*—The aggregate expenditure of the boards, during the year under report, amounted to 1,49,13 against 1,69,35 in the year preceding. Out of this 41,35 was spent on "Education", 6,25 on "Public Health", 14,55 on "Medical Relief" and 64,61 on "Civil Works" against 41,06; 5,62; 14,77 and 79,11 incurred respectively on these heads during the preceding year. The expenditure on "Public Health" includes 2,19 spent on water supply and water works against 1,74 incurred on these items in the preceding year. The balance was expended on other minor heads of which "Veterinary" came in for a major share of 2,08. The explanation for material fluctuations in the expenditure under the major heads mentioned above as compared with that of the previous year and a brief resumé of the principal activities of the boards during the year in respect of the administration of their important departments are given in the succeeding paragraphs.

9. *Education.*—As stated in the preceding paragraph the total expenditure of the boards during the year on education shows a net excess of approximately 29 over the expenditure incurred last year. The increase was shared by the district boards of Patna, Gaya, Champaran, Muzaffarpur, Bhagalpur, Purnea, Hazaribagh, Manbhum and Singhbhum. In other districts there was a fall in expenditure under this head. While there was substantial increase in the districts of Champaran (23), Muzaffarpur (48), Bhagalpur (21), and Manbhum (15), the district boards of Shahabad, Saran and Ranchi recorded a decrease of 10, 35 and 10 respectively. The increase in the districts mentioned above was due to various causes but mainly to payment of gurus of primary schools at the prescribed minimum rate, periodical increments and restoration of cut in the pay of teachers, conversion of some stipendiary and aided schools into board-managed ones and entertainment of additional teachers. The decrease in Shahabad is more apparent than real. The payment of arrear dues in the previous year swelled the last year's figure. The heavy decrease in Saran is attributed to non-payment of educational bills during the year. In Ranchi the expenditure of a large accumulated balance in the previous year was responsible for increased expenditure during that year. Inspite of the decrease in some districts the expenditure on education was in excess of the minimum prescribed in almost all the district boards.

The number of Middle English schools maintained by the boards rose from 263 to 299 but that of Middle Vernacular schools dwindled from 83 to 71. A number of Middle Vernacular schools were converted into Middle English schools as the demand for the latter class of schools is reported to be increasing. One new Middle English school was started in Purnea. The Patna and the Darbhanga district boards are contemplating to convert all the Middle Vernacular schools into Middle English ones. Three aided Middle Vernacular schools in Darbhanga were also converted into aided Middle English schools. Government, however, agree with the observations made by the Commissioner of the Patna Division that the policy of converting Middle Vernacular schools into Middle English ones at a time when the Wardha scheme of Education is under consideration is inopportune. The number of upper primary and lower primary schools managed by the boards increased by 68 and 46 respectively, during the year. Along with the increase in the number of these schools the number of pupils attending them also increased. There was a decrease in the number of pupils in the Middle Vernacular schools which is consistent with the fall in the number of such schools. Among the various classes of schools aided by the boards the number of upper primary schools

rose by 32 but the number of other classes was below that of the previous year. The Patna, Gaya and Saran district boards took a number of aided and stipendary schools under their direct management. The Saran district board stopped the grants-in-aid given to 29 Middle English schools last year. The number of stipendiary upper primary schools increased by 72 but that of lower primary ones dropped by 172. Free and compulsory primary education under the Primary Education Act continued to be given within the Jamhore union board in Gaya. On the whole the boards cannot be credited with having made any appreciable advance in the matter of primary education though a few individual boards, notably those of the Patna Division, can claim some progress in this direction.

The number of girl students attending upper and lower primary schools managed and aided by the boards fell by a few hundred but the number of girl students attending stipendiary schools increased by over 5 thousand. 45 girls' schools were aided by the union boards in Shahabad. It is reported from Patna Division that the progress in girls' education is hampered for want of trained women teachers but the number of girls receiving education in boys' schools is increasing and there is also demand for higher education for girls. The three girls' Middle Vernacular schools in the three outlying subdivisions of Gaya are reported to have been equipped with properly qualified teaching staff and teaching appliances and the primary girls' schools in that district have also been staffed by women teachers. The education of girls appears to have received greater attention from the Gaya district board than from any other board. In Purnea 10 girls including 4 Muhammadans are reported to have secured lower primary scholarships during the year. Financial assistance to village libraries was given by the Patna district board and it is reported that the library at village Desna in the Bihar subdivision has got a good collection of books in Urdu, Hindi and English.

Vocational training continued to be given successfully in middle schools of the Patna district board. Training in these schools is mostly given in carpet-weaving, book-binding, cap-making, newar-making by teachers trained in the Government Institute at Gulzarbagh. Special mention has been made by the chairman of this board of the Noorsarai Middle English school where students have learnt to prepare handkerchiefs and palla caps of the Lucknow pattern and design. A tailoring class was opened at the Hasua Middle English school in Gaya under a qualified teacher. No other board except Shahabad and Monghyr interested itself in this sort of technical education. It appears from the statistics that the Shahabad district board maintained one industrial school and the Darbhanga and Manbhum boards aided one and four such schools, respectively, during the year under review. A number of district boards awarded scholarships for technical and medical education.

The education of the boys of the depressed and scheduled castes received special attention of the district boards of Patna, Gaya and Purnea. Books, slates and writing materials were supplied free to these boys by the Patna and Gaya boards. Special prizes were given to them by the Patna district board on occasions of prize distribution and the chairman of this board is reported to have issued a general circular to local and union boards and head masters of middle schools to admit as many students of the depressed classes as possible. In Gaya a lower primary scholarship is reserved for the boys of the depressed classes. The Purnea district board maintained one and aided 16 schools for boys of the aboriginal classes. The board also aided a number of schools for education of the boys and girls of the depressed classes. The Bhagalpur district board spent a fair sum on the education of the Santals in the Banka subdivision. The system of medical examination of school children by the Public Health officers or by medical officers of local dispensaries continued in some districts. The defects noted were brought to the knowledge of the parents and guardians of the boys.

10. *Medical.*—Compared with the preceding year's figures the expenditure under this head fell in some districts but increased in others in the year under review resulting in a net decrease of 23 in the provincial figure. The

decrease mainly occurred in the districts of Patna, Gaya, Shahabad and Darbhanga where the expenditure fell by 14, 26, 8 and 10. The decrease in the districts of Patna, Gaya and Darbhanga is ascribed mainly to the fact that, in the year preceding, they had to make special contributions towards the extension of the Itki Sanatorium. Less expenditure on hospitals and dispensaries was also partly responsible for the heavy decline in Gaya. The payment of a contribution last year by the Darbhanga district board to the Darbhanga Medical School Hospital for a Frigidaire for storage of anti-rabic vaccine swelled the figure of the preceding year's expenditure of this board. The decline in Shahabad is attributed to payment, in the preceding year, of heavy arrears of outstanding bills for supply of medicines. The expenditure of the Hazaribagh district board rose by 7 mainly on account of the resumption of control of six dispensaries which had previously been transferred to the control of the Ramgarh and Kunda Estates owing to financial stringency. The increase of 6 in Manbhum is ascribed to the opening of new dispensaries and to the payment of a grant of 2 to the *Nabakustha Nibas* at Balrampur. In Purnea the opening of new dispensaries resulted in an increase of about 9 in the expenditure. The fluctuations in other districts were small. The expenditure of most of the boards exceeded the minimum prescribed in each case.

The number of dispensaries maintained and aided by the boards during the year under report was 428 and 122 against 410 and 108 respectively in the previous year and included some Ayurvedic and Tibbi dispensaries. New dispensaries were opened by the district boards of Shahabad, Saran, Champaran, Purnea, Hazaribagh, Manbhum and Singhbhum. The Tibbi dispensary at Majorganj and the Ayurvedic dispensary at Katra in the district of Muzaffarpur were replaced by Allopathic dispensaries as the area suffers most from malaria and the indigenous dispensaries could not meet the requirements of the locality. This board has also decided to start a number of subsidised dispensaries in the district and arrangements are in hand to give effect to the proposal. In Hazaribagh the increase in the number of dispensaries is not, in fact, due to establishment of new ones but to the resumption of control of six dispensaries previously transferred to the control of Ramgarh and Kunda Estates as mentioned above. Some new dispensaries were aided and subsidised in the districts of Champaran, Muzaffarpur, Darbhanga and Manbhum. Of the 22 aided dispensaries in Champaran as many as 19 were Ayurvedic and Tibbi. In Manbhum 7 Homeopathic dispensaries received aid from the board. The Patna district board continued to subsidise the municipal dispensaries at Barh, Bihar and Dinapore and to contribute towards the cost of maintenance of the female hospitals at these places. It also continued to contribute towards the maintenance of the Irrigation Department dispensaries at Bikram and of the Gaya Leper Asylum and the Leper Institute at Gulzarbagh. The Gaya district board continued to pay its usual subsidies to the local Pilgrims Hospital, Leper Asylum and the Lady Elgin Zenana Hospital and to the Daudnagar dispensary. The Bhagalpur district board paid an increased contribution of 8 to the Sadr hospital as, during the last two years, and made a special non-recurring grant of 5 to the Dufferin Hospital.

Some advance appears to have been made in measures for maternity work by the district boards of Patna and Shahabad. The former board entertained one additional midwife and the latter appointed 3 midwives and 13 trained *dais* against 2 midwives and 11 *dais* engaged last year. The Gaya district board continued to employ one midwife each at the Sherghati, Imamganj, Fatehpur, Rajauli, Warisaliganj, Arwal, Ghosi, Nabinagar and Rafiganj dispensaries. The Champaran and Darbhanga district boards continued the services of one trained midwife each who toured throughout the district and trained local *chamains*. 129 *chamains* were successfully trained during the year by the midwife in Champaran and she also attended 81 labour cases. The Muzaffarpur board employed two trained *dais* in two dispensaries and made a small contribution to the local maternity and child welfare society. A beginning was also made by the Bhagalpur district board in maternity and child welfare work. The board appointed a trained midwife who toured throughout the district to train village *chamains* and to attend delivery cases.

The district boards of Patna and Gaya appear to have taken no special measure for the treatment of leprosy cases beyond paying their contributions to the Gaya Leper Asylum and the Gulzarbagh Leper Institute. The Shahabad district board is reported to have got one of its doctors trained at Calcutta during the year in the treatment of leprosy. The Saran district board made small contributions to Chapra, Gopalganj and Siwan hospitals for treatment of lepers. The seven leprosy clinics in Muzaffarpur continued to work and treated 573 patients with the result that 52 of them were "symptom free" and 199 "improved" on the completion of the course of treatment. The Darbhanga district board maintained a leper clinic which treated 8,313 patients with injections. The incidence of leprosy in Champaran is reported to be high but no special measure is reported to have been taken by the board. The leper clinics financed by the Bihar Relief Committee at Jamui and Begusarai in Monghyr worked satisfactorily and are reported to have treated 121 patients. There was also a leper clinic attached to the subdivisional hospital at Supaul in Bhagalpur. The Manbhum district board, as already mentioned, made a contribution of 2 to the *Nabakustha Nibas* at Balrampur. The district board of Darbhanga paid a fixed monthly allowance to the staff of the Darbhanga Medical School Hospital for anti-rabic treatment and the Muzaffarpur and Monghyr district boards sanctioned lump sum contributions to the local anti-rabic centres for the same purpose. The Bhagalpur district board made a contribution to the Patna Pasteur Institute and also to the Sadr Bhagalpur hospital for anti-tuberculosis scheme. Most of the boards awarded scholarships for medical education both in allopathic and indigenous systems.

11. *Public Health.*—The aggregate expenditure of the boards during the year under this head shows a net excess of 63 over that of the previous year and of 116 as compared with the expenditure of the year preceding that year. It is thus obvious that the boards on the whole have been giving increasing attention to the problems affecting the health of the people in the villages. The principal activities of the boards consisted of the provision of better facilities for supply of good drinking water by sinking new wells and the adoption of preventive measures against outbreaks of epidemic diseases and combating such diseases wherever they actually broke out. Propaganda work for the dissemination of the knowledge of elementary principles of sanitation and hygiene among the rural population by means of demonstration lectures was another important activity of the public health staff of the boards and due care was taken to ensure proper sanitation at *melas* and fairs. The Patna district board maintained an elaborate organization for rural sanitation in the district and the gang of sweepers and the jamadars employed was also required to give practical demonstration in digging manure pits and soakage pits for sullage on Gurgaon lines. Action under the Bihar and Orissa Food Adulteration Act was also taken by some of the boards to prevent sale of adulterated food.

The general health of the rural population in the majority of the districts of the province was on the whole satisfactory. There were outbreaks of cholera and small-pox epidemics in most of the districts but they were confined to isolated areas and were not of a virulent type except in Shahabad where small-pox is reported to have exacted a heavy toll of life. Use of Bacteriophage and preventive inoculation was resorted to on a large scale to combat the spread of cholera and vaccination and revaccination work was carried out extensively to keep down the incidence of small-pox. Compulsory vaccination was introduced in the district of Shahabad during the year under report. The districts of the Tirhut Division were the worst sufferers from epidemic diseases. The common epidemics in these districts were plague, cholera, small-pox and malaria. The Public Health staff of the boards were engaged in combating these epidemics and the services of additional temporary doctors were employed wherever the permanent staff did not prove adequate to meet the situation. The plague epidemic in Saran is reported to have taken a serious turn during the year and over a thousand deaths occurred in the district from this disease. Plague inoculation was resorted to on a larger scale than before and the affected houses were disinfected

to prevent the spread of the disease. Saran also suffered badly from
cholera and small-pox and the number of deaths from these diseases during
the year was also fairly large though the usual preventive measures were
taken here as elsewhere. In Champaran Bettiah thana suffered from plague,
as usual, but cases of attacks and deaths were comparatively few during the
year under review. Malaria raged in epidemic form in all the districts of the
Trihut Division but was extensive in the districts of Muzaffarpur and
Darbhanga. In these districts a large number of anti-malaria centres had to
be started at suitable places to treat malaria patients as the medical officers
in charge of dispensaries could not cope with the unusual increase in the
number of sufferers. The number of malaria patients in each of these two
districts ran into several lakhs during the year. Besides the additional
temporary staff employed by the district board of Darbhanga, five epidemic
doctors were deputed to the district by the Director of Public Health, Bihar,
who also made a liberal supply of 443 lbs. of quinine. Besides the distribution
of quinine an anti-mosquito campaign was started near Pandoul during the
year to prevent the spread of malaria. Tanks, ditches and streams in the
affected villages which are breeding places for mosquitos were cleaned and
sprayed with insecticides to kill larvae. The effect of this campaign has been
to reduce the incidence of malaria in the locality where it was tried.

During the year under review larger grants were given by Government
to district boards for improvement of drinking water supply in rural areas as
compared with the preceding year and a fair portion of these grants was set
apart for provision of wells for Harijans. In Darbhanga 11 masonry wells
were completed during the year and 58 tube-wells were provided out of
a generous gift of the Maharajadhiraja of Darbhanga. A well-boring staff
and some tube-well *mistries* also worked in the district during the year.
Eleven new wells are reported to have been sunk in Monghyr and 272 wells
were sunk in Purnea out of the district fund. In Bhagalpur district
a number of tube-wells were sunk in the flood-affected areas of the Supaul
and Madhipura subdivisions and 50 tube-wells were provided in the
Singeshwar *mela* area. Larger expenditure was incurred in the Sadr sub-
division of Manbhum out of the special grant made to the board to remove,
to some extent, the acute scarcity of water supply in that subdivision. No
other board is reported to have made any substantial advance in the matter of
water supply.

12. *Veterinary.*—The aggregate expenditure of the boards during the
year under this head amounted to 2,08 against 2,03 in the preceding
year. The increase was shared by the majority of the boards but
was appreciable in the districts of Patna, Champaran, Muzaffarpur,
Darbhanga and Bhagalpur. The increase in Patna was due to pay-
ment of larger contributions to Government on account of pay, pension
and leave allowance of Veterinary Assistant Surgeons. In Champaran
the payment of a contribution of 1 towards cattle improvement and larger
expenditure on serum and vaccine was responsible for an increase of about 2.
The increase in Muzaffarpur and Darbhanga is attributed mainly to the
appointment of one additional touring Veterinary Assistant Surgeon in each
of these districts. The Darbhanga district board also paid contributions to the
Madhubani Agricultural and Industrial Exhibition and to the Darbhanga
Goshala Society which partly swelled its expenditure under the head. The
opening of a new veterinary dispensary at Bakhari led to some increase in the
expenditure of the Monghyr district board under this head. A new touring
Veterinary Assistant Surgeon was also appointed by the Ranchi district
board and posted at Lohardaga. The two dispensaries at Chakia and Dhanah in
the district of Champaran could not be opened during the year for want of
financial assistance from Government. The activities of the department
consisted, as usual of the castration of animals, propaganda work and the
treatment of animals at hospitals and dispensaries and also at the rural
veterinary dispensaries and in the Mufassil during the course of tours by the
touring Assistant Surgeons. The touring Assistant Surgeons were also
engaged in inoculating cattle to prevent the spread of any cattle disease
of an epidemic nature. Inoculation of cattle is reported to be increasing in
popularity and the prejudice against it is gradually disappearing. The

slight decrease in the number of cattle protected by the Goat Tissue virus
method was due to the fact that the supply of virus was withheld by the
Imperial Veterinary Research Institute for a while on account of
shortage of stock. No details are furnished in the reports of the Divisional
Commissioners to show the progress made during the year in the activities
of this department by the various district boards but from figures reported
by the Commissioners of the Tirhut and the Chota Nagpur Divisions it appears
that the number of cases treated at veterinary hospitals and outside by
the Veterinary Assistants increased, on the whole, in these divisions as
compared with the preceding year. No occurrence of any cattle disease in
a serious epidemic form is reported from any district. A number of district
boards continued to maintain stud-bulls with a view to improve the breed of
cows and buffaloes. The Darbhanga district board purchased 18 Hissar
breed bulls during the year for distribution in the district and the
Muzaffarpur district board maintained 10 stud-bulls. The Purnea district
board contributed, as usual, towards the award of prizes at the cattle shows
at Khagra, Gulabbagh and Dharamganj *melas.* Shoeing forges attached to
the veterinary hospitals at Muzaffarpur, Motihari and Monghyr continued to
be maintained by the boards. An extra Nalband (farrier) attached to the
forge at Muzaffarpur paid monthly visits to Hajipur and Sitamarhi for a week
or so. One-hundred and eight cases under the Cruelty to Animals Act were
instituted in Gaya all of which ended in conviction except two which were
pending trial about the close of year under review.

13. *Civil Works.*—The expenditure of the boards under this head fell
from 79,11 in the preceding year to 64,61 during the year under review but
was still higher than the figure of 1935-36 when it amounted to 59,17 only.
The decrease in the expenditure was shared by all the district boards except
Champaran where the expenditure rose by 47. The decrease was remarkably
heavy in the districts of Gaya, Muzaffarpur and Purnea where it amounted to
1,54 5,29 and 2,23, respectively. The decrease in Gaya is attributed to less
expenditure on buildings and repairs of communications due to lack of funds.
In Muzaffarpur and Purnea the comparatively heavy decline is noticeable
on account of expenditure last year of large Government grants provided for
earthquake reconstruction work. In Champaran the rise in civil works
expenditure is reported to be due mainly to larger expenditure on earthquake
reconstruction work during the year under report. The decrease in other
districts is ascribed to different causes. In Patna the expenditure dwindled
by 64 on account of less expenditure on repairs of communications. In
Shahabad the actual requirements for both new and repair works was reported
to have been less than in the preceding year. In Saran and Darbhanga larger
expenditure incurred on earthquake reconstruction work in the preceding year
swelled the figures for that year above the normal standard. The decrease in
other districts is reported to be due either to less amounts being available for
expenditure under this head or to special grants made by Government for
specific projects in the preceding year. Out of the total outlay of 64,61 under
this head the boards spent 8,35 on building works and 44,64 on communica-
tions. No new building or road project of any magnitude was undertaken
by any of the boards during the year under review. Some of the important
road repair works and bridges executed by some of the boards and the expendi-
ture (in round figures) incurred thereon are noted below :—

(1) Repairs of Dinapur-Paliganj road in Patna	26
(2) Repairs of Gaya-Nawadah road in Gaya	26
(3) Repairs of Arrah-Sasaram road in Shahabad	30
(4) Repairs of Arrah-Chausa road in Shahabad	25
(5) Construction of the Harbora bridge on Shikarpur-Ramnagar road in Champaran	35
(6) Construction of a screw pile bridge at Saidpur Ghat in Darbhanga	90
(7) Construction of a reinforced concrete bridge over the Auranga river on the Latehar railway station approach road ..	45

The last-named bridging project is being financed from the special grant made by the Government of India to this province out of the Central Road Development Fund and the expenditure noted against it represents only a part of the estimated cost which stands at 1,40. The district board of Monghyr completed the construction of the dak bungalow at Monghyr at a cost of over 11.

The total mileage of metalled, un-metalled and village roads maintained by the boards during the year was 2,403, 14,993 and 9,993, respectively as against 2,378, 14,940 and 9,961 maintained in the preceding year. Although the total mileage of all these classes of roads increased, the total expenditure incurred on their maintenance decreased respectively from 16,34, 15,79 and 2,09 in the preceding year to 13,06, 13,33 and 1,93 in the year under report. The reason for the decrease in the cost of maintenance lies in the reduced cost of repairs per mile of each of these three classes of roads which during the year under review, worked out to Rs. 543·38, Rs. 88·91 and Rs. 19·31 per mile against Rs. 687·15, Rs. 105·67 and Rs. 21·03, respectively in the previous year. Since there are no valid reasons to assume that materials and labour were available at cheaper rates during the year under report, the decrease in the total expenditure of the boards on maintenance of roads would appear to point to deterioration to a certain extent in the efficiency and the standard of maintenance of roads maintained by the boards. The cost of maintenance of metalled roads per mile was highest in the district of Patna, viz., Rs. 805 and lowest in Palamau where it was only Rs. 137. The average cost of maintenance of unmetalled roads was, however, highest in Tirhut where it worked to Rs. 123 per mile against the provincial average of Rs. 89 per mile.

A fair amount was spent by the district boards of the Tirhut, Bhagalpur and Chota Nagpur Divisions on the improvement and maintenance of inter-district communications. The screw pile bridge at Saidpur constructed by the Darbhanga district board at a cost of 90 has greatly improved the inter-district communication between Muzaffarpur and Darbhanga. The report from the Patna Division does not mention any important work on inter-district roads. No new railway feeder roads are reported to have been constructed by any of the boards. The Patna district board is reported to have given special attention to the Bihar-Rajgir road because of the historical and religious importance of Rajgir and Nalanda which draw many pilgrims and visitors every year. The condition of roads in the district of Saran is reported to be extremely bad and the financial position of the board is shaky. The Provincial Government were compelled to withhold the grants payable to the board out of the Motor Vehicles Taxation receipts for maintenance of communications as they were not satisfied that the grants were likely to be spent usefully. The relations between the executives and the late District Engineer of this board were much strained and culminated in the discharge of the latter from service. The District Engineer has filed a suit against the board for heavy damages.

All the district boards continued to incur expenditure on 'Arboriculture' except those of Hazaribagh and Ranchi which have been exempted from the liability of incurring any expenditure under this head on account of their very limited resources. The minimum prescribed for expenditure under this head was attained by the district boards of Patna, Shahabad, Champaran, Palamau, Manbhum and Singhbhum.

14. *Water hyacinth.*—The district boards of Patna, Shahabad, Bhagalpur and Purnea spent very small amounts on the eradication of this weed and no real efforts appear to have been made to stop its growth. In the district of Patna the weed is reported to have been removed on a large scale from a tank at Khussropore in the Barh subdivision. The sanitary staff of the board also took steps to clear this weed in other thanas of the district. In Champaran the public health staff cleared this weed from the Bhunda Chawar in Dhaka police-station. The by-law framed and enforced by the Muzaffarpur district board is reported to have resulted in checking its growth in that district. From the reports of the Divisional Commissioner it is clear that the Tirhut

boards have not given much attention to the clearance of water hyacinth wherever it has been found to exist. This may be due to the fact that the growth is not extensive but it would be judicious in this matter to follow the maxim "prevention is better than cure" and to nip this pest in the bud than to wait for the time when its growth will have assumed serious proportions rendering its extirpation a difficult and expensive affair.

15. *Closing balance.*—As stated in paragraph 5 the aggregate closing balance of the boards, excluding deposits and Government grants at the end of the year under review amounted to 21,90 which was considerably higher than that of the preceding year which stood at 15,60. The closing balances of all the boards were above the prescribed minimum, in each case, except those of Saran, Champaran and Manbhum. The balance of the Saran district board stood at about 13 against the prescribed minimum of 60. The Champaran district board again, as in the preceding year, encroached upon Government grants to the extent of over 13 and had no balance of its own at the close of the year. The balance of the Manbhum district board was a little short of the prescribed minimum. The closing balances were high in the case of the district boards of Patna, Gaya, Shahabad, Darbhanga, Muzaffarpur and Purnea. The heavy balance in Patna is reported to be due to a loan of 100 sanctioned by Government about the close of the year under review. The high closing balances of the other boards are attributed mainly to lapses of allotments made for expenditure in the budget under important heads.

General remarks.—Although the limited resources of the boards did not permit of any considerable advance in their activities the administration of the boards was, on the whole, fairly satisfactory except in Saran where party factions adversely affected its administration. The strained relations between the executives and the District Engineer of this board practically brought the activities of the civil works department to a standstill and eventually ended in the discharge of the latter from the board's service. The relations of the executives of this board with the officials were also not as good as could be desired. The natural consequence of all this was that the administration of this board suffered in almost every direction. Serious allegations were also made, during the year under report, against the administration of the Champaran district board which have been under inquiry. Except for these two boards the relations between the members and executives of the board and between the executives and Government officials were cordial. The administration of the district boards of Patna, Gaya and Monghyr has been particularly commended and the work of the executives of these boards has been eulogized by the local officers. The administration of the Bhagalpur district board which continued to be under supersession with the local boards is reported to have improved considerably and the good work of the Special Officer, Babu Nand Kishore Singh, has been specially commended by the local officers.

The financial position of the boards except those of Saran, Champaran and Manbhum was satisfactory during the year under report. The district boards of Saran and Champaran must exercise the utmost caution in framing their budgets to re-establish their financial credit. The subsequent decisions of Government with regard to reduction of land rent is bound to further reduce the cess income of the boards and until measures are devised to bring in additional income to the boards from other sources, the boards must take timely action to cut down their expenditure in every department with a view to balance their budgets. The Provincial Government have already issued a circular letter to district boards indicating, in general, the lines on which retrenchment in expenditure could be attempted. The task of effecting retrenchments without sacrificing the general efficiency of administration calls for a good deal of foresight, imagination and caution and Government hope that the executives of the boards would be equal to the task.

An important event in the sphere of Local Self-Government has been the establishment of a Mines Board for the administration of colliery areas in Hazaribagh. The financial adjustment made under the Hazaribagh Mine

Board Act between the parent district board and the Mines Board has resulted in securing a larger cess income to the Hazaribagh district board which is expected to help them, to some extent, in tiding over their financial difficulty. The Mines Board was actually constituted after the close of the year under review and its working is being watched with interest. Another important event during the year was the decision of Government to extend the privilege of electing non-official chairmen to the district boards of Hazaribagh, Ranchi, Palamau and Singhbhum on their reconstitution after general elections. Government also decided, shortly after the close of the year, under review, to extend the provisions of the Bihar and Orissa Local Self-Government Act, 1885, to the district of the Santal Parganas and to replace the old District Road Committee by a full-fledged district board with an official chairman but an elected vice-chairman.

Comments on the general condition of accounts of district boards are made in the Annual Report on the working of the Local Audit Department in Bihar published under the authority of the Examiner of Local Accounts, Bihar.

In conclusion the Provincial Government note with satisfaction the good work done by the majority of the executives of the district boards particularly those of Patna, Gaya and Monghyr. They take the opportunity to thank the local officers and the Commissioners of Divisions for the help, co-operation and guidance ungrudgingly given by them to the non-official executives of the boards in the discharge of their onerous duties.

By order of the Governor of Bihar,

B. C. MUKHARJI,

Secretary to Government.
